To Whom It May Concern:

The organization West End P.O.W.E.R has been a pillar in the community that they serve. I have been excited to witness how the organization provides pertinent information to the residents which allow them to be up to date on what is going on in the community that they live in and around the country. West End P.O.W.E.R pours into the community a sense of self-worth and empowerment by holding several events such as homeownership classes which incorporates information about credit awareness and budgeting. This has helped those who desire to become homeowners to be prepared for the process. Home ownership also promotes a huge sense of commitment to the community. I have also personally attended their Civic Series, which allows the community to hear from elected officials personally in a space where they can ask questions and receive direct answers. West End P.O.W.E.R has aided the community in finding and applying for jobs, have access to food banks and other social services. I am proud to align myself with an organization that understands the problems in the community and provides real solutions. I am so very proud to stand behind an organization that selflessly pours into a community all that it can to help it not only thrive, but helps it build up.

Sincerely

Joy Hill
